Tailwind   
Sass/Scss 

JavaScript (ES6)   
Vue   
React 

### Back-end

php   
Laravel 

MySql 

### Languages

Dutch   
English   
French 

## INTERESTS

I developed a strong interest in everything **web development** related. I love **learning** about new technologies and have a slight preference for **back-end** development. Would like to learn more about **networks** and (ethical) **hacking**.

Besides technology, I also love **cooking**. I play **music** (guitar - piano), (used to) go to **concerts** a lot and occasionally work on my **bikes**.

## Education

Oct 2020 - present

Junior Full-stack developer - BeCode, Ghent

An intensive course where you learn the fundamentals of modern web development, coached by professionals. You get to train both your soft skills - *presenting, teamwork, solving mindset* - and hard skills - *coding*.

Technologies learned:

- Fundamentals: HTML - CSS - JavaScript - php - git  
- Frameworks: Bootstrap, Tailwind, React, Laravel

Sep 2007 - Sep 2013
